## Description

---

### Product Details:

The 7-port USB 2.0 hub is great for connecting your iPod®, printer, digital camera, mouse, thumb drive and more. Transfer music, videos and files at up to 40x faster than USB 1.1.

Three top loading USB ports offer convenient access for USB devices when other USB ports are blocked by larger devices.

Power the USB hub directly from your computer's USB port or use the included AC adapter for high power consumption devices.
