Description

Titan launches a stylish and portable cooling pad. The TTC-G9TZ, a modern 3 in one multi-functional aluminum cooling pad could be separately used both on the desk and on your laps, is the excellent choice for laptop users. The lightweight and foldable board design is good for portability. Otherwise, for the safety suggestion, using the aluminum board individually could prevent users from hurting by high temperature generated from laptops; meanwhile accelerating cool airflow. The anti-slide function increases the convenience of using the netbook on laps and keeps intakes from being blocked by bodies. TTC-G9TZ with the USB powered feature comprises two silent fans sized in 8cm which could help draw heat away from your laptop immediately and promote the computing efficiency. The thickness of this cooling pad is only 1.2 cm. The slim size is easy to be packed into your netbook bag. Enjoy all superior cooling and portable benefits of TTC-G9TZ!
