

Coolaboratory MetalPad (100% Liquid Metal) Thermal Interface Material - GPU - 1 Pads

\$7.95

Product Images

Short Description

The Coollaboratory Liquid MetalPad Thermal Interface Pad is the first heat conduction pad composed of 100% metal and melts with heat from the graphics processor (Burn In-process), and then it performs superior heat transfer. It dissipates the heat fast and efficiently, outperforming the best heat conduction pastes. The simple, clean and fast installation turns the Liquid MetalPad into the ultimate heat conduction medium for High End PCs.

Description

The Coollaboratory Liquid MetalPad Thermal Interface Pad is the first heat conduction pad composed of 100% metal and melts with heat from the graphics processor (Burn In-process), and then it performs superior heat transfer. It dissipates the heat fast and efficiently, outperforming the best heat conduction pastes. The simple, clean and fast installation turns the Liquid MetalPad into the ultimate heat conduction medium for High End PCs.

The Liquid MetalPad can be used with all on the cooling market commercially available materials, for instance aluminum or copper! It doesn't age and doesn't have to be exchanged regularly. The Coollaboratory Liquid MetalPad is RoHS compatible and absolute nontoxic.

The Coollaboratory Liquid MetalPad is delivered in a transparent blister-package and contains one Liquid MetalPads. Additionally there is a detailed printed manual included and a cleaning set for removal / cleaning of the contact area before and after using the Liquid MetalPad.

Note: This Item can not be shipped using DHL

Specifications

Features:

- Melts on to processor during "burn in" for best thermal conductivity
- Precut metal pads fit perfectly on ATI and nVidia Graphics Processors - set it and forget it!
- No more leaky syringes and no more stained fingers - the metal pads are easy to use!

Specifications:

Metal Pads:	1
Cleaning Sets:	Included

Additional Information

Brand	Coollaboratory
SKU	COOLLABORATORY-GPUX1
Weight	0.2500
TIM Type	Pad
Vendor SKU/EAN	4260157580039
