### Features

---

Features:

- HDMI Ethernet Channel :Adds high-speed networking to an HDMI link, allowing users to take full advantage of their IP-enabled devices without a separate Ethernet cable.
- Audio Return Channel :Allows an HDMI-connected TV with a built-in tuner to send audio data "upstream" to a surround audio system, eliminating the need for a separate audio cable.
- 3D :Defines input/output protocols for major 3D video formats, paving the way for true 3D gaming and 3D home theater applications.
- 4K Support :Enables video resolutions far beyond 1080p, supporting next-generation displays that will rival the Digital Cinema systems used in many commercial movie theaters.
- Content Type :Real-time signaling of content types between display and source devices, enabling a TV to optimize picture settings based on content type
- Additional Color Spaces :Adds support for additional color models used in digital photography and computer graphics.
