

# ThermoLab BADA 2010 Revolutionary 3-Heatpipe CPU Cooler - 775, 1366, 1156 & AM2/+

\$39.95

## Product Images

## Short Description

---

BADA2010 is follow-up model of BADA which was spotlighted in performance and in price compared with world top class cooler. BADA2010 is following the concept "for cooling mania who want extreme performances".

## Description

---

ThermoLab Co.,Ltd specialized in computer cooling solution releases the NEW CPU Cooler BADA2010.

BADA2010 is follow-up model of BADA which was spotlighted in performance and in price compared with world top class cooler. BADA2010 is following the concept "for cooling mania who want extreme performances".

- BADA(바다) [bada] has a meaning of 'the sea' in Korean  
As the sea is origin of all creatures,  
BADA2010 want to be a cooler that makes equilibrium  
and harmonization in heat dissipating  
and thermal transfer in the personal computer system.
- BADA2010 is for high-end users seeking for better silence in using personal computer  
BADA2010 usually runs 1000~1,500rpm under general circumstances.  
Although BADA2010 runs 2,100RPM, users can be satisfied with its low noise.
- Also, BADA2010 is one of heat-pipe cooler with small size that makes good compatibility. Although bada2010 is run with low noise (with low RPM), its performance overwhelm another brand Cpu cooler

## Features

---

- The compatibility is superb in over 165mm case width.
- Designed with low Rpm(Max.2100rpm) and rounded 92mm PWM function with 4-PIN
- Excellent heat-sink design under low RPM and low noise(17~20dBA)
- Silicon fan mount was applied to prevent oscillation.
- Thermal grease is included performing efficient thermal transfer
- Cooling performance similar to big tower cooler
- Various socket compatibility

## Specifications

---

### Applicable CPU

- Socket type : Intel Socket 775, 1156, 1366 CPUs / AMD Socket AM2/AM2+/AM3 CPUs

### Components

- Heatsink Assembly - 1SET(BADA Heat-sink with FAN)
- Smart Clip - 4EA(2\*2EA)
- Fixing Bolt for Smart Clip - 5EA(4EA+Spare1EA)
- Back Plate - 1EA
- FixingBolts for Heatsink - 5EA(4EA+Spare1EA)
- Rubber Pad - 1EA(For LGA775,AM2,AM2+,AM3)
- Rubber O-ring - 5EA(4EA+Spare1EA)
- ThermalGgrease - 1EA
- Hand Nut - 5EA(4EA+Spare1EA)

### Specifications:

<b>Product name</b>	Bada2010
<b>dimension</b>	95 × 115 × 135 (L x W x H)mm
<b>weight(including fan)</b>	521g
<b>Heatsink material</b>	Pure Copper, Aluminum
<b>Dissipation area</b>	5,175 cm <sup>2</sup>

## Additional Information

---

SKU	BADA2010
Weight	2.7500
Material	Copper/Aluminum
Fan Dimensions	92mm
Fan Connection	4-Pin PWM
