Lian Li PC-Q11B Aluminum Mini Tower Case - Black

Quality is one of the key elements of Lian Li's products. Lian Li has been manufacturing in Taiwan for more than 20 years and through continual self revision has ensured that the product's quality meets Lian Li's high quality workmanship standards. Lian Li manufactures each unit of Lian Li product with precision and care. They are then distributed to worldwide channels where many leading media have applauded and awarded Lian Li for both innovative and decisive designs, featuring good looks, and exemplary performance.

Lian Li launched new Mini ITX chassis in 2010, designed for users with taste who also need more living space. Mini-Q PC-Q11 is made in Taiwan, in high quality aluminum alloy panel and unique technique which developed from twenty years experience. Hand built, durable high-quality product in high standard craftsmanship..

The Mini-Q PC-Q11 carries the standard of Lian Li's quality requirement, all the sharp edges had been removed to protect user's hand. The chassis is made of 1.5mm aluminum alloy panel to ensure product's durability and all external parts are hair-line brush anodized aluminum in keeping with Lian Li's classical style.

To ensure user can put everything together easily, Lian Li designer decided to use only standard PC component inside the Mini-Q PC-Q11, standard Mini-ITX/DTX motherboard, standard 5.25" optical drive, standard 3.5" / 2.5" hard drives, standard ATX PS/2 power supply units. The parts are easy to get on current market, and it would be easy to upgrade and server in the future.

Mini-Q PC-Q11 supports two of 3.5" and 2.5"HDDs, The modular HDD cage can be removed, simply un-do the thumb screw,ideal for easy HDD installation and services.

There is a 140mm intake fan on Mini-Q PC-Q11, The fan can output high air flow volume with lower RPM to push the cold air through the m/b.

There are vent holes at the top part and side panels, allow air to enter to cool the system down.

There are also some vent holes next the rear I/O slots, designed for CPU cooling.

Stanrdard ATX PS/2 power supply unit. When user has an ATX PS/2 power supply with 120mm cooling fan, it can be facing the motherboard which are passive cooled.

There are vents on the PCI slots, provids extra cooling to graphics card.

Specifications

Specifications:

Model	PC-Q11
Case Type	Mini Tower
Dimensions	(W) 200mm x (H) 326mm x (D) 260mm
Front bezel Material	Aluminum
Color	Black / Silver / Red / White
Side Panel	Aluminum
Body Material	Aluminum
Net Weight	2.42KG
5.25" drive bay (External)	1
3.5" drive bay (External)	None
3.5" drive bay (Internal)	3.5-Inch HDD x2 & 2.5-Inch HDD x2
Expansion Slot	2
Motherboard	Mini ITX / Mini DTX
System Fan (Front)	140mm Fan x 1
System Fan (Top)	None
System Fan (Rear)	None
I/O Ports	USB3.0 x 2 / HD Audio
Maximum Video Card Size	None
Package Dimensions	(W) mm x (H) mm x (D) mm
Gross Weight	KG

Additional Information

Brand	Lian-Li
SKU	PC-Q11B
Weight	25.0000
Color	Black
Chassis Form Factor	Mini-Tower
Side Panel	No Window
Motherboard Support	Mini ITX
Material	Aluminum
PSU Wattage	No PSU
