Description

Renowned art and design of the future: the ideal addition to the essay for the Alphacool Laing DDC pump.

Compatible with both the 1/4Zoll version and the High Flow 3/8Zoll Alphacool Laing-tops!

The Alphacool Laing DDC Reservoir Rev. 2 is a further module to expand and improve the Laing DDC-1T and Laing DDC pumps 1Plus. The basis here already upgraded pumps are used with Alphacool Laing essay. These can now be provided with only a few steps to a surge tank. Just the container on the top with the included seal put on, tighten the 4 screws at the corners, ready!

The selected material is again Plexiglas, which for years has their lovers. Colored coolants emphasize the design piece, which is emphasized even more when used in the Alphacool top nor the existing opening with LED lighting color matching.

On the technology of the Alphacool Laing DDC Reservoir Rev.2, not much has changed, why, it was back then and still is today: Ahead of his time! A concept which tried for years and confirmed its right to exist, white is now the slight visual processing even more attractive! Therefore, the connecting thread size is 1/4Zoll that closes the included 1 inch oil eye with O-ring seals against the top lid.

Of course, all the other benefits of the Alphacool Laing essay how to hang in drive shafts, etc., continue to be met with this extension!

Compact, space-saving in the new look and a proven technology, it presents itself to the new Alphacool Laing DDC Reservoir Rev.2!
