Helping Hands

Perfect for hobbyists, electricians, jewelers and users who work with solder and small details. Our helping hand magnifier provides 2 alligator clips to help you.

Bright LED Lights

The built-in 2 LED lights put out the perfect amount of lights when you need to work in the dark (work with batteries).

4X Magnifier

Quality 4X magnifying glass helps to read tiny print on any IC or chips more closer and clear.

Flexible Design

Flexible design helps to adjust the magnifier in any angles that you want.

360 Degree Clips

2 quality alligator clips on 4-way swivels, securely holds the items you are working at.
