Short Description

Product Details:

Lian Li - The Ultimate Craft

Quality is one of the key elements of Lian Li's products. Lian Li has been manufacturing in Taiwan for more than 20 years and through continual self revision has ensured that the product's quality meets Lian Li's high quality workmanship standards. Lian Li manufactures each unit of Lian Li product with precision and care. They are then distributed to worldwide channels where many leading media have applauded and awarded Lian Li for both innovative and decisive designs, featuring good looks, and exemplary performance.

Description

Lian Li - The Ultimate Craft

Quality is one of the key elements of Lian Li's products. Lian Li has been manufacturing in Taiwan for more than 20 years and through continual self revision has ensured that the product's quality meets Lian Li's high quality workmanship standards. Lian Li manufactures each unit of Lian Li product with precision and care. They are then distributed to worldwide channels where many leading media have applauded and awarded Lian Li for both innovative and decisive designs, featuring good looks, and exemplary performance.

Lian Li launched new Mini ITX chassis in 2010, designed for users with taste who also need more living space. Mini-Q PC-Q09F is made in Taiwan, in high quality aluminum alloy panel and unique technique which developed from twenty years experience. Hand built, durable high-quality product in high standard craftsmanship.

LIAN LI - Excellent Design

A Good Design is to make the life simpler, not complicate it. The Mini-Q PC-Q09F is in minimalism style, it is a combination of art

and technology.

The clean shape of Mini-Q PC-Q09F with rounded edge can be fit with interior decoration easily. The hair-lined anodized aluminum exterior dress up with blue and red back-lighted power and reset buttons. The design of Mini-Q PC-Q09F is to be as simple as possible, the exterior of the case is also the structure of the chassis.

Lian Li Fine Craftmanship Product

To ensure user can put everything together easily, Inside the Mini-Q PC-Q09F, standard Mini-ITX motherboard, slim CD-Rom optical drive, standard 2.5" hard drives, and standard Mini-ITX power supply units. The parts are easy to get on current market, and it would be easy to upgrade and server in the future.

Mini-Q PC-Q09F features multi-heat zone design, one zone one top holds motherboard, Lower part holds the HDD and Slim CD-Rom, to separate the heat sources for better thermal solution.

Silent Performance

The Chassis is made of 1.5mm aluminum alloy panel, The thick and solid chassis has no vibration problem. To reduce the size of the Mini-Q PC-Q09F, the side panel are secured with screws, it also reduce the vibration, and lower the noise level.

Thermal Solution

The Mini-Q PC-Q09F has passive cooling design, due to there are less heat from the Mini-ITX system. There are vent holes on the top and side panel of the chassis, allow air to enter to cool the system down.

User Friendly Design

Multi-media port connectors follow international specification standards, with one connector for easy installation.

New USB3.0 ports, Audio supports HD Audio on the front cover. The dual design is for better compatibility options, allow for easy access.

Specifications

Specifications:

Model
PC-Q09F
