Short Description

Product Details:

A STAR HAS BEEN BORN

Alioth is the brightest star in the constellation of Ursa Major. The word "Alioth" origins from the ancient word "Alyat", which means "fat tail of the sheep". Alioth has a very weak magnetic field for its type of star and the magnetic poles separates different elements in the stars hydrogen fuel. This phenomenon causes Alioth to have very strange spectral lines. The spectral lines have been implemented in the design of the surface to avoid data losses in chaotic situations.

MODEL OVERVIEW

Next generation of coated mouse pad, suitable for all type of gaming. The surface is made of an extremely smooth cloth to allow user do exact and precise movements. Backside is made of a rubber-based material offering a combination of firm grip and great performance. Alioth 320 is the ultimate mouse pad for players who like to play with high sensitivity without losing control over the movements.

Features:

New developed coating

New developed coating for maximum glide
Optimized for gaming
Optimized dimensions for high mouse sensitivity
Rubber-based backside
Backside is made of a rubber-based material with a ribbed pattern to improve the grip
Unique design
The unique striped design improves the sensor performance and reduces data loss
3 mm thickness
3 mm thickness smoothens out the differences irrespective of the surface under the mousepad

Specifications:

- Material: Durable, smooth and flexible coated cloth
- Surface: Glossy, low-friction coating
- Dimensions: 320mm x 270mm
- Thickness: 3mm
- Weight: 146 g
- Back: Rubber based back for a firm grip on all types of surfaces
- Compatibility: Optical & laser
