Short Description

Developed by HeatoN "The one and only"

The QPAD HeatoN is constructed in a 3 layer construction. Starting with a high quality cross weave natural rubber base to make it stay firm on the table. The second layer is an ABS plastic sheet to give it stability and weight. The third surface layer is made from a durable Carbytek™ plastic that offers a unimagined feeling of speed in combination with smooth micro precision control.

Description

Product Details:

Developed by HeatoN "The one and only"

The QPAD HeatoN is constructed in a 3 layer construction. Starting with a high quality cross weave natural rubber base to make it

stay firm on the table. The second layer is an ABS plastic sheet to give it stability and weight. The third surface layer is made from a durable Carbytek™ plastic that offers a unimagined feeling of speed in combination with smooth micro precision control. The combination of a spongy 2mm natural rubber base with an 1mm ABS board in between and the Carbytek™ hard top surface gives it a feeling unique for the QPAD HeatoN series. The weight of 550 gram makes it stay firmly on the table. QPAD HeatoN Medium has a size of 36.5 x 28 cm compared with the first version that was 43.5 x 36.5 cm. The new size is adjusted to fit every gamers table.

"With the best glide ever on a hard top gaming pad together with the durability so the glide won't change every week. I would have to say that we have developed the perfect plastic pad that will never interfere with your game and make sure you are always on the top of your game." - Says Emil "HeatoN" Christensen

About Heaton:

Emil "HeatoN" Christensen is a legend for his achievements in the Counter-Strike 1.6 pro gaming arena, and his unique technique when shooting. By taking his team "NiP" (Ninjas in Pyjamas) to winning the World Championship and once more with the successful team SK-Gaming, HeatoN has been a centre figure in the pro-gaming arena for a long time. After retiring as an active pro gamer he became General Manager for the Swedish team "Stockholm Magnetik" in the global gaming tournament CGS. Emil "HeatoN" Christensen has won several tournaments around the world e.g. 9 CPL, 4 CPL World Championships, 1 World Cyber Games and 3 Nations cups and several other tournaments. Today Emil "HeatoN" Christensen is making a living out of developing gaming products with several brands. Heaton recently launched his first gaming mouse pad together with QPAD.
