Short Description

Product Details:

Superior Pro-Gamer Mousepad for Low-Sense & High-Sense-Gamers

The RAPTOR-GAMING P8 DS was specially designed for the requirements of Low-Sense- and High-Sense-Gamer. The cloth mat is very flexible. A total new innovation is the fact that the RAPTOR-GAMING P8 DS can be used with both sides and one side is coated with Teflon.

The mousepad combines the world of Low-Sense- and High-Sense-Gamer. The side with the Teflon coated surface is specifically made for High-Sense-Gamer. The second side of the RAPTOR-GAMING P8 DS is coated with a particular black high-quality textile material which is for the ultimate use of Low-Sense-Gamer.

With its dimensions of 400x300x2mm it does deliver enough space for intensive „Moves“. The RAPTOR-GAMING P8 DS is suited for the general use of optical and ball mice. The thickness of only 2mm avoids early fatigue of the wrist and therefore, it is the perfect choice for extensive deathmatches. The RAPTOR-GAMING P8 DS is among the most flat pro-gamer mousepads in the market. In the delivery content you find an additional rubber pad with anti-slip rubber to prevent the mousepad from slipping on any surface.

Features:

- Compatible to all common mouse types
- Low thickness of only 2 mm
- Extremely ergonomic design
- Extensive durability
- Excellent gliding properties
- Teflon coating

Specifications:

- Especially coated black high-quality textile material on one side
- Other side coated black high-quality textile material with Teflon surface
- Friction adapted on each side to low-sense- & high-sense-gamers
- Additional rubber pad for anti-slip purpose
- Excellent gliding properties
- Easy and accurate per-pixel cursor control
- Spacious bearing surface (400 mm x 300 mm)
- Extensive durability
- Extremely ergonomic design
- Compatible to all common mouse types
- Low thickness of only 2 mm

Delivery Contents:

- RAPTOR-GAMING P8 DS
- Additional rubber pad
