Short Description

The new "Shock" series headset offers new colors on the headband contrasting with the ear pad's black base - offering the E-Sports community an exciting alternative headset color option. The new "Shock" 40mm driver unit offers stereo surround sound quality to enhance gaming sound effects. Specifically tuned to meet FPS/RTS/MMORPG gamers' expectations, the 40mm driver units offer better than crystal clear sound quality - and bring victory one step closer.
