

Phobya Universal G1/4' Connector Piece 5-way, Nickel Coated

\$5.95

Product Images

Short Description

Product Details:

The universal divider for all G1/4" fittings!

This connector block can be configured as a divider or be used if the cooling loop is extended without having to reinstall the complete system or e.g. as a divider for a de-aeration vent. The included plug caps can be used on all 5 threads, therefore giving a maximum of flexibility. The block is designed to not create any additional flow resistance!

Technical data:

Material: Nickel coated brass

Height: 17mm

Width: 46mm

Thread size: G1/4"

Extent of delivery:

1x universal connector block, 5-way G1/4"

Note: Due to the low depth of the threads of only 5mm some fittings may require spacer rings (Art.No.: 14087, 14151 or 95008)

Important: To ensure a proper seal we recommend the use of Teflon tape (Art.No.: 32002) or a gasket (Art.No.: 95002).
