Product Details:

Keep your powerful and valuable video processor running at peak performance with an all-copper heat sink designed to fit both ATI and NVIDIA cards. Embedded in the Cyclone cooler is a light-up 45mm fan that rapidly dissipates heat buildup. Use the included mini heat sinks to help cool the video memory chips too. Includes fan guard, 8 mini heat sinks, power adapter, thermal grease and hardware.

Features

- LED inside.
- All in 1 VGA cooler. Attached the 2 different mounting holes which compatible with all kinds of ATI and nVIDIA cards.
- The solid copper heat sink with transparent LED fan with a fashionable cover on it to make your VGA cards looking great.
- Extra 8pcs heat sinks included

Specifications

- Dimensions: 45x45x10 MM
- Material: Copper RPM
- Speed: 5000±10% RPM
- Max Air flow: 7.79 CFM
- Voltage: 12V
- Bearing Type: Ever Lubricate bearing
- Weight: 147g

Compatibility

- Nvidia GeForce 3 Ti 200, Ti 500 GeForce 4 MX 420, MX 440, MX 460 GeForce FX 5200, FX 5500, FX 5700LE, GeForce 4Ti 4200, 4Ti 4400, 4Ti 600 GeForce FX 5600, FX 700, FX 5900, FX 5950, GeForce 6600
- ATI RADEON 7200, 7500, 8500, 9000, 9200, 9500, 9600, 9700, 9800
