\$3.19

Product Images

Short Description

For connection of three 3-Pin fans (radiator fans, case fans etc.) to one Mainboard connector (3-Pin). Please note that rpm monitoring is possible for only of the connected fans.

Description

Product Details:

For connection of three 3-Pin fans (radiator fans, case fans etc.) to one Mainboard connector (3-Pin). Please note that rpm monitoring is possible for only one of the connected fans.

Please note: When using this adaptor cable please always consider the limitations of the socket from which it draws power. Too high currents and loads caused by the connected fans may damage the connected devices!

Features

Sleeving:

This cable is not only practical, it is also optically appealing. The surrounding mesh, also called mesh, which is surrounding the cable itself offers the advantages that every Pro-modder is looking for: A completely unique look, even of the cables in the system! Special attention was paid to the combination of cable connectors, sleeve and heatshrink which were used to ensure great design and a unique as well as elegant look.

The idea behind these cables:

Phobya's goal is to make the work of professional and hobby modders a bit easier with these cables. Sleeving is a lot of work and requires much time. But with these cables by Phobya the whole system can be redesigned any way you like by simply adding these cables.

A white sticker on one of the cables shows which fan can be monitored.
