\$3.95

Product Images

Short Description

This 2-Pin extension cable can be used for sensors which are too far away from the monitoring device.

Description

This 2-Pin extension cable can be used for sensors which are too far away from the monitoring device. Especially in larger cases or when attempting cable management out of sight these extension come in very hand.

Of course this cable can also be used for many more applications such as the case speakers or power- or reset-button.
