The Premier League with a Classical Design. Developed with and for our discerning customers, the new (((NB))) Premium range of fans - equipped with a classical frame and rotor blade - combines the NB-BlackSilentPro series with the latest high-technology in a tried and tested design.

Description

The Premier League with a Classical Design

Developed with and for our discerning customers, the new ((NB)) Premium range of fans - equipped with a classical frame and rotor blade - combines the NB-BlackSilentPro series with the latest high-technology in a tried and tested design.

The high-quality NB-EKA Plus II drive and the almost noiseless NB-NanoSLI bearings guarantee operating noise levels which are particularly low over the long term - both equipment features which until now have only been used as part of the costlier Multiframe Reference series.

In addition to the tasteful design in matte black and mirror finish, the BlackSilentPro fans are equipped with an individually extendable cable management system and an NB-Silentframe silicone seal and installation material for vibration-free assembly without tools.

Quality developed in Germany!

Features

- High-quality stable glass fibre-reinforced chassis in a classic design with anti-dust polycarbonate rotor.
- Cable management system, plug-in cables 20 +50 cm combinable.
- Vibration-free installation without tools.
- Extremely low start voltage!
- Low impulse noise NB-EKAPlus II wide range drive.

Maximum Reliability

- Reverse pole and overload protection, restart function, extremely failsafe.
- Almost noiseless bearings, extremely low-noise and long-life NB-NanoSLI® bearings

Highest Quality

- Includes installation material and additional.
- Scope of delivery includes installation material and NB-Silentframe sealing frame.
- 6-year guarantee

Specifications

Type:	Speed:	Start/nominal voltage:	Volume (dbA):	Power:
PE-1	1300rpm	5V / 13,2V	 42,0m ³	 14 dBA
PE-P	up to 1800rpm	5V / 13,2V	 38,0m ³	 20 dBA

▼ = 25 dB(A) Limit for commercial work noise at night for Germany.

According to VDI 2058 and TA Lärm nach § 48 des Bundes-Immissionsschutzgesetzes (BImSchG).

Developed in close collaboration with customers

The equipment of the new fans, the aim of which was to satisfy as much as possible the demands of the users, was hotly

debated by the members of the online community of [Hardwareluxx.de](https://www.hardwareluxx.de). Often the devil was in the detail. There were different opinions about the ideal rotational speeds and the required air delivery volume. But also detailed equipment features such as a restart function, adjustability, cable length or visual appearance also played an important role among the users. The details of the discussion can be found in the forum thread of [hardwareluxx.de](https://www.hardwareluxx.de).

Additional Information

Brand	Blacknoise
SKU	NB-PE-P
Weight	0.4000
Color	Black
Fan Dimensions	92mm
Fan Width	25mm
Fan Connection	3-Pin
Fan Voltage	12 VDC
Fan RPM	1800
Fan CFM	36
Fan Noise (dB)	20
Vendor SKU/EAN	4250051906240
