Short Description

Product Details:

The Adesso SlimTouch Desktop Keyboard features an integrated touchpad with GlidePoint touchpad technology. The touchpad can take the place of your mouse, making it easier to control the movement of the cursor in your personal computer. The keyboard features low profile quiet tactile membrane keys and has an elegant sleek design with metallic accent.

Features:

-  Built-in Touchpad which eliminates the use of a mouse
The integrated touchpad eliminates the need for a mouse and saves valuable desk space. The Glidepoint Touchpad puts computer control at your fingertips, allowing you to navigate, scroll, access files and enter data, all with just a light touch of the finger.
-  Sleek design and low profile key
The SlimTouch Desktop keyboard is a low profile keyboard with a slim and stylish design, featuring a chrome and shiny piano finish. It also compliments the looks of most desktop devices, such as TVs or LCD monitors.
-  Embedded multimedia and Internet hotkeys
Hotkeys on the keyboard allow users to connect directly to their favorite Internet or multimedia programs. With a single touch, users can surf the Web, navigate music and video clips, and start many frequently used programs.
-  Membrane key switch for fast and quiet typing
The low profile membrane key switch features more than a five million lifecycle, and it is designed with a silicone rubber material, which can reduce noise when typing, offering a faster and quieter typing experience.
