Short Description

EK has developed a new mounting mechanism for best performing universal GPU waterblocks in the world - the EK-VGA Supreme HF. New mounting mechanism offers easy to install procedure, with better grip on thumb nuts and more overall stability.

Description

EK has developed a new mounting mechanism for best performing universal GPU waterblocks in the world - the EK-VGA Supreme HF.

New mounting mechanism offers easy to install procedure, with better grip on thumb nuts and more overall stability.

Each of springs offers 5 kg of pressure, therefore optimal pressure of ~20 kg on GPU can be achieved.
All thumb nuts and screws are nickel plated.

Specifications

Package contains:

- 8x M3 polyamid washers (0,8mm thick)
- 4x thumb nut CPU M3
- 4x M3x8 DIN7985 screws
- 4x thumb screw CPU M3
- 4x springs M3x8 mm
- 4x acetal standoffs (2,1mm thick)
- Allen key 2mm

Made in Slovenia - EU!
