

Akasa Viper 140mm Fan

\$14.95

Product Images

Description

High performance 14cm fan with S-FLOW blades supplying 30% more airflow than a standard fan at the same speed. The greater performance combined with PWM automatic speed control allows the fan noise to be kept to a minimum.

The Viper fan creates more focused airflow providing blind-spot cooling, which makes it an ideal solution for a case or heatsink fan. HDB (Hydro Dynamic) bearings extend fan life and further enhance noise reduction. Killer Viper yellow colour makes this fan distinctive and unique.

Features

- High performance 14cm fan in killer VIPER yellow colour
- S-FLOW fan blade design delivers 30% higher airflow
- Super silent with PWM auto speed control
- Hydro Dynamic Bearing extends fan life up to 50,000 hours

Specifications

Application	PC case or heatsink fan
Dimension	140 X 140 X 25mm
Fan speed	600 -1600 RPM
Max airflow	110.61 CFM
Max static air pressure	3.12 mm H2O
Noise level	12.5 - 26.01 dB(A)
Voltage rating	12V DC
Bearing	HDB (Hydro Dynamic Bearing)
Fan life expectancy	50,000 hours
Connector	4pin PWM
Product code	AK-FN063

Additional Information

Brand	Akasa
SKU	AK-FN063
Weight	1.0000
Color	Yellow
Fan Dimensions	140mm
Fan Width	25mm
Fan Connection	4-Pin PWM
Fan Voltage	12 VDC
Fan RPM	1600
Fan CFM	110
Fan Noise (dB)	26

THERMALBENCH

March 2, 2016

"The Viper costs less than most other fans it has been compared against in the previous page and this is definitely a big plus point. Packaging was good also, and the fan build quality was decent as well. The fan uses a fluid bearing which is pretty much a long life sleeve bearing, and is not high on power consumption either. Pure performance as a radiator fan was not bad either, If you are looking for yellow fans out of the box, these merit a consideration- the Viper 140mm is not too bad for the money."
