#### Description

Part of the BitFenix Alchemy Premium Modding Series, Alchemy LED Strips are the ideal choice when modding inspiration strikes. These precision manufactured LED Strips come with BitFenix TriBright LED Technology for the absolute brightest LED strips available. Alchemy LED Strips come in both chainable Connect and waterproof Aqua, and offer a multitude of lengths and colors, enabling you to bring your modding vision to light.

#### Features

LED Strips

▼ TriBright<sup>™</sup> LED Technology

When only the brightest will do, BitFenix TriBright<sup>™</sup> LED Technology gives you the industry's brightest LED strips. TriBright uses independent ICs to power each LED bulb for maximum brightness.

Precision Manufactured

Alchemy LED Strips are made using a precision SMT manufacturing process, which means the highest quality, enhanced current conduction, and prolonged life.

Chainable Connect Series

Have a special idea that needs an extra-long length of LED strips? No problem. With Alchemy Connect LED Strips, you can connect as many strips together as you need with the only limitation being your power supply's current.

Waterproof Aqua Series

Want to pimp out your water-cooled rig? Use Alchemy Aqua Series LED Strips, which are completely waterproof and perfect for liquid cooling reservoirs.

High Grade Adhesive

BitFenix Alchemy LED Strips are backed with high-grade adhesive from 3M<sup>™</sup>, which makes sure that your LED strips will remain where you left them, even when your computer is being moved around.

Multiple Colors and Lengths

No two modding projects are alike, which is why Alchemy LED Strips come in a large variety of colors and lengths.
