

# Coolgate Quad 140mm Ultimate Heat Exchanger Radiator

\$139.99

## Product Images

## Short Description

The Coolgate 560 Heat Exchanger is a combination of all the best rad designs making it versatile and a performance beast. Designed with triple parallel rows minimizes water resistance the Coolgate series achieves optimal cooling performance. Featuring inner tubes made of 90% copper this series is made for high end performance. Set up options are available with the dual in and out G1/4 threaded ports along with the fill port on the opposite side making this the most flexible radiator available. Fan silencers are included as well for silent operation and a great seal to the radiator.

## Description

---

The Coolgate 560 Heat Exchanger is a combination of all the best rad designs making it versatile and a performance beast. Designed with triple parallel rows minimizes water resistance the Coolgate series achieves optimal cooling performance. Featuring inner tubes made of 90% copper this series is made for high end performance. Set up options are available with the dual in and out G1/4 threaded ports along with the fill port on the opposite side making this the most flexible radiator available. Fan silencers are included as well for silent operation and a great seal to the radiator.

Radiator can be used for multiple loop systems, (shared fluid)!

Note: Radiator comes with 5 total ports and 3 plugs, a minimum of 2 G1/4 threaded fittings are required for usage and available below.

## Features

---

- Tubes with 90% copper
- Protect environment by using RoHS compliant components, recycled materials and lead-free production
- Optimal FPI (fins per inch) is designed for low speed fans to guarantee silent operation
- 4 G1/4" threads and UNC 6-32 screw threads allow multiple and flexible installations and configurations
- Based on long-standing professional research, development and production we provide full 3 years warranty on Coolgate heat exchangers
- Triple parallel rows minimize water resistance and achieve optimal cooling performance
- 16mm fan-spacing

## Specifications

---

<b>Weight:</b>	2360 g
<b>Liquid Volume:</b>	870 ml
<b>Pressure Tested:</b>	1.5 Bar
<b>Dimensions:</b>	614 x 142 x 60 mm
<b>FPI (Fin per Inch):</b>	
<b>Material:</b>	Copper Fins, Brass Chambers
<b>Screw Thread Length:</b>	6.0mm 30mm
<b>Included:</b>	Coolgate Series Radiator 4 x Silicon Fan Silencer 16 x 6-32 thread 30mm length screws 16 x 6-32 thread 6.0mm length screws 3 x G1/4 Brass Plugs

## Additional Information

---

Brand	Coolgate
SKU	CG-560-D
Weight	4.5000
Color	Black
Radiator Size	560 (4 x 140mm)
Radiator Thickness	60mm
Vendor SKU/EAN	4260242980089
