## Description

---

This custom modified grill from Performance PC's features a 3D Hexis carbon fiber looking film professionally applied to the top surface. For a unique and futuristic looking radgrill, this will be the center of attention of your newly modified case!

Simple & stylish - Stripes is a classic design that will stand the test of time. 4x140 for radiators with 4x140mm fans.

If these mounting holes does not fit your radiator - do a favor for your watercooling brothers - drop us an email with the brand / model / url so we can look into get new RadGrillz done. [radgrillz@acryan.com](mailto:radgrillz@acryan.com) Better yet, send us the measurements of your radiator mounting hole positions.

\*\*Please note that the fan screw holes are purposely made on the small side so that they can be enlarged with a drill to the correct screw size and slightly to either side of the screw hole to cover more radiator installations. RadGrillz have been found to work fine with Hardware Labs (Black Ice) and Swiftech Radiators but, not the Thermochills. \*\*

-----

Phobya RadGrillz are specially designed & made for watercooling radiators. These RadGrillz function as fanguards for your single / multiple fan radiators. Precision cut from high quality material (available in Aluminium or Stainless Steel).

Aluminium Black (annodized) gives a cool matte black look and is ultra lightweight. Stainless Steel, the highest grade steel with high hardness & strength, gives a high-value polished look. Add on the cool superior look to your watercooling with RadGrillz. All RadGrillz are designed with airflow in mind for great looks *and* great performance.

Includes mounting holes for each fan. An additional 4 mounting holes in the corners is handy if you prefer to securely mount your RadGrillz rather than via the fans. Diagram template with mounting hole position / sizes is included.

*Phobya says:* "Mod supplies lets you mod the mod you want, the way you want it."

## Specifications

---

Use these RadGrillz Templates for positioning your RadGrillz. Print it out and use it to drill holes! The template is also printed on the back of each RadGrillz's packaging.
