## Product Images

## Short Description

Untitled Docum

The GPU-X<sup>2</sup> Dual-Link provides an optimal combination of two cards in SLI or Crossfire systems. The Dual-Link is optimized flow and gives the graphics card association added stability due to the parallel flow of the graphics card is the flow resistance is kept low.

## Description

Untitled Docum

The GPU-X<sup>2</sup> Dual-Link provides an optimal combination of two cards in SLI or Crossfire systems. The Dual-Link is optimized flow

and gives the graphics card association added stability due to the parallel flow of the graphics card is the flow resistance is kept low. Besides the ease of installation is identical on both cards coolant temperature, a further advantage over serial-carrying systems. The GPU-X<sup>2</sup> has 4 threads for maximum flexibility of installation, the threads not needed can be plugged with the included plugs.

**NOTE: For motherboards with PCIe distance of about 61mm (two slot between the PCIe).**

## Specifications

---

### Specifications:

- PCIe distance: approx 61mm
- Material: POM
- Dimensions: (LxWxH) 84.0 x 60.0 x 17.5 mm
- Weight: 80g
- Connection: G 1 / 4 inch (DIN ISO 228-1)
- Tested pressure: 5 bar
- Compatible with HEAT KILLER ® GPU-X<sup>2</sup> series

### Delivery:

1x GPU-X<sup>2</sup> Dual-Link (2-Slot)

2x Plug cap g1/4"

## Additional Information

---

Brand	Watercool
SKU	WC-10192-D
Weight	0.4000
Color	Black
Vga	Universal
Block GPU Type	Nvidia/AMD
Block Accessory Type	SLI Bridge
Special Price	\$8.99
