

Phobya PCI Slot Cover 4Pin Molex & 3x 3Pin Fan Plug

\$9.25

Product Images

Short Description

The inside of the slot cover is equipped with a 4-Pin Molex connector, which is looped through to the outside and additionally connected to 3x 3-Pin fan connectors. This is especially handy when trying to externally connect a radiator, pump, fan etc. to the system PSU. With this slot cover a clean connection from the inside to the outside of the enclosure can be achieved.

Description

Slot cover for easy connection of external radiators/fans etc.

The inside of the slot cover is equipped with a 4-Pin Molex connector, which is looped through to the outside and additionally connected to 3x 3-Pin fan connectors. This is especially handy when trying to externally connect a radiator, pump, fan etc. to the system PSU. With this slot cover a clean connection from the inside to the outside of the enclosure can be achieved.
