

Phobya Elbow Adaptor Revolvable G1/4' to G1/4' Inner Thread - Silver Nickel

\$6.78

Product Images

Short Description

Product Details:

Thread adaptor G1/4" outer thread to G1/4" inner thread.

Especially in smaller cases, systems with many waterblocks or other special applications space is often not sufficient to simply run the tubing in radiuses. Normal angled connectors also have the advantage to reduce flow. This is when this fitting option comes into play: Not narrowed internally this manifold offers great advantages especially when using High-Flow fittings.

The cubic design also allows easy installation and fixation inside of the case.

Specifications:

- Material: Silver nickel plated brass
- Thread size: 1/4" (1x inner thread and 1x Outer thread)

Extent of delivery:

- 1x Angled adaptor -revolvable- G1/4" angled adaptor silver nickel

Please note: To ensure a perfect seal we recommend the use of Teflon tape (Art.No 32002) or a seal ring (Art.No. 98002).
