\$4.50

Product Images

Short Description

Our trusted fittings are available in a whole new design!

Robust high-quality adaptor which allows connection of any G1/4" fitting to the Eheim pump outlet. Simply replace the original outlet adaptor with this fitting and you can connect any G1/4" fittings.

Description

Our trusted fittings are available in a whole new design!

Robust high-quality adaptor which allows connection of any G1/4" fitting to the Eheim pump outlet. Simply replace the original outlet adaptor with this fitting and you can connect any G1/4" fittings.

Specifications

- Material: Brass, black nickel coated
- Thread size: Inner thread G1/4" (to allow regular fitting installation); outer thread G1/8" (to install on pump)

Extent of delivery:

Black nickel coated pump adaptor

Please note: Do not insert the adaptor "dry" as the O-ring twists when dry and may not provide a safe seal. Therefore please moisten the O-ring before inserting the adaptor to prevent any problems.

Note: Tightening the pump adapter is too hard can lead to breaking of the plastic covering. By resting of the O-ring and a slight rotation of the fixed handle leak is already assured.
