\$1.75

Product Images

Short Description

Spring band clamps as hose clamps have proven themselves in the water cooling sector and have become essential for many users and systems. Hose clamps are important for fixation of tubing on barbed fittings without a union nut. These spring band clamps can be opened hassle-free by hand without any tools. It's even easier with pliers!

Description

Spring band clamps as hose clamps have proven themselves in the water cooling sector and have become essential for many

users and systems.

Hose clamps are important for fixation of tubing on barbed fittings without a union nut. These spring band clamps can be opened hassle-free by hand without any tools. It's even easier with pliers!

When using the Alphacool hose clamps, the choice of colors is Chrome, Deep Black and shiny copper. With these Alphacool finishes you are sure to find the perfect one for your system. The completely matching product series makes every system shine in its very own light, there is no limit to individuality when using Alphacool tubing!

With a new chromating process the finish is permanently connected to the brass surface, ensuring longevity of the intense colours and preventing separation of the finish from the surface.
