

# Swiftech MCP35X2 Housing - White

\$56.95

## Product Images

## Short Description

The MCP35X2-H is a dual pump housing providing extreme flow performance and pump redundancy; it is compatible with all MCP35 series pumps, including the MPC350, MCP355, and MCP35X.

## Description

The MCP35X2-H is a dual pump housing providing extreme flow performance and pump redundancy; it is compatible with all MCP35 series pumps, including the MPC350, MCP355, and MCP35X.

Features:

- Extreme flow performance for systems using multiple water-blocks
- Pump redundancy: if one pump fails, your system remains safely operational
- The upper housing surface is compatible with Swiftech's optional reservoir, the MCP35X-Res listed in related products below
- Control both pumps simultaneously with the included Swiftech's PWM splitter. The splitter can also be daisy-chained to control multiple pumps and PWM fans.
- Standard G1/4 thread class for inlet and outlet ports allow to choose which fittings and tubing size to use;
- CNC machined in black or white POM
- Designed in strict compliance with the pump operating specifications
