

8-pin PCIE2 to 4 x Molex Splitter Cable - Sleeved

\$14.95

Product Images

Short Description

This handy cable will take an existing unused 8-pin PCIe 2.0 cable off your PSU and convert it to 4 x 4-pin Female Molex Connectors. This would only be used for powering 12V devices like fans from this cable.

Description

Product Details:

This handy cable will take an existing unused 8-pin PCIe 2.0 cable off your PSU and convert it to 4 x 4-pin Female Molex Connectors. This would only be used for powering 12V devices like fans from this cable. It will not work for HDD or optical drives, etc as there is no 5V rail. Cable is 12" long.

Your choice of sleeving and heatshrink colors. Sleeving is nylon Techflex material.
