

Koolance Inline Coolant Filter, 0.27mm Particles [no nozzles]

\$24.99

Product Images

Description

All metal inline coolant filter for keeping accidental debris from damaging the pump or clogging other components. It includes two reusable stainless steel filters with hole sizes of 0.42mm/sq and 0.27mm/sq.

G 1/4 BSP sockets are provided on both sides, with one male and one female for easy installation into the inlet of a water block, pump, or [heat exchanger](#). Nickel-plated brass and stainless steel mesh filters. The filter body can be unscrewed for cleaning or replacement.

Features

NOTE: Liquid Coolants Koolance's product warranty does not cover the use of 3rd-party coolants, coolant additives, or corrosion. Koolance LIQ-702 or LIQ-705 coolants are strongly recommended to help avoid issues with mixed metals or biological growth. Additionally, do not use aluminum with bare (unplated) copper or bare (unplated) brass in the same system. Do not use silver with nickel in the same system.
