4300	1.8 AMPS	HIGH	VARIABLE	25 OZ	CORDED

## Short Description

The versatility of a rotary tool allows you to cut just about any material when used with the appropriate Dremel cutting accessory. Cut metal, wood, hard materials (such as marble, concrete, brick, porcelain, ceramics and hard epoxy), drywall, tile, grout, and much more.

## Description

The Dremel 3000 is the result of upgrading our most popular rotary tool using user-requested features to improve the tool's design and ergonomics. The tool also features the EZ Twist nose cap with an integrated wrench that allows the nose cap to be used as a wrench to tighten accessories and eliminates the need for a separate wrench. A more efficient fan design and side vents provide a cooler running tool making it comfortable for extended periods of use. The tool also features a symmetrical design including a trumpet-shaped nose cap to facilitate a pencil-grip tool hold. The ability to use all existing Dremel rotary tool accessories and most attachments let the 3000 complete a wide range of applications including cutting, grinding, sanding, carving and polishing a variety of materials.

## Features

- Corded Variable Speed Rotary Tool Kit: Includes 3000 high-speed rotary tool, 24 genuine Dremel accessories, Dremel A576 Sanding/Grinding Guide Attachment, and accessory storage case.
- Speed range of 5,000 to 35,000 RPM with 6 variable speeds, provides precise tool control and maximum accessory versatility.

- High performance 1.2 amp motor – Provides maximum power and performance at all speeds.
- Slim & ergonomic body with soft grip allows for added comfort and control during extended use.
- 24 versatile accessories included; ideal for cutting, engraving, grinding, sharpening, detail polishing and sanding. Great for a variety of DIY & crafting projects like metal engraving and glass etching.
