

Primochill Base High Purity Deionized Water - 128oz

\$26.95

Product Images

Description

Primochill base joins the most popular water cooling fluid line on the market for all types or DIY water-cooling users. DIY Basic Use: Great for prepping and getting your cooling loop up and running. DIY Extreme Use: Excellent for the EXTREME Users seeking the absolute lowest temperature and highest overlocks. PC Base compliments the most intensive cooling loops with its high purity deionized water. PC Base is the purist form of fluid. It is intended to be used in conjunction with additional agents. It is NOT recommended to be used without an anti-microbial or anti-corrosion additive. Always keep your system clean and free of dust, especially in a water cooled system.

Features

- High Purity Deionized Water - Lab Quality
- Impurities are Removed For Cleanest Water
- Residue Free
- Perfect Pre-treatment / System Flush Fluid
- Environmentally Responsible NON-Toxic Biodegradable Product
- Liquid Utopia is the perfect addition to PC BASE, Providing All the Closed Loop Protection You Have Come to Expect From Primochill
