Short Description

The Alphacool Heatmaster II - 5,25" mounting bracket black is designed to allow installation of the popular Heatmaster 2 in a 5.25 drive bay.

Description

The Alphacool Heatmaster II - 5,25" mounting bracket black is designed to allow installation of the popular Heatmaster 2 in a 5.25 drive bay.

An easy principle:

The bracket is mounted where usually an optical drive is installed: At first mount the Heatmaster between two brackets, push the Heatmaster into the drive bay and fasten the screws Done!

An elegant black design and a rugged steel structure make sure that there are no longer any worries about Heatmaster 2 mounting problems.
