Short Description

Alphacool's fittings go new ways in looks, quality of manufacturing, colors and choice. The inner diameter of these fittings truly deserves the "high flow" attribute!

Description

Alphacool's fittings go new ways in looks, quality of manufacturing, colors and choice. The inner diameter of these fittings truly deserves the "high flow" attribute!

The first three colors, Chrome, Deep Black and Shiny Copper offer something for every taste. The product matching series are designed to look elegant in every system, highlighting the individual design of the computer. The limits are endless with these Alphacool fittings in combination with Alphacool tubing!

With a new process during chromatising the surface finish is completely connected with the brass body, hence ensuring permanent intense colors and peeling of the chrome layer. The Alphacool name in blue lettering on some of the fittings additionally underlines the individuality of these items.

Specifications

Functionality of this connector:

Beside classical fittings, barb fittings are another way to connect hoses with fittings. They are much more compact than classical fitting so that you can see more of the tube. Very popular in Casemodding systems! This fitting has a 90° kink and is pivoted. That's important for an easy tubing of the system.

Extreme Highflow:

In difference to other fittings this barb fittings have a bigger inner! This fitting is unique in the Watercooling scene because of his 13mm outerdiameter with 10mm fitting innerdiameter.

Specifications:
